

HYDROCARBON RESINS SELECTION GUIDE

Resin Type / Application	Marine & Protective	Industrial Coatings	Auto Refinish (Light Color)	Printing Inks	Hot-melt (HMA)	Hot-melt (PSA)	Rubber & Tires	Adhesive Tapes
Standard C9 Resin	★★	★★★	★★★	★★★	★★★	★	★★★	★
Low Color C9 Resin	★★	★★★	★★★	★★★	★★	★	★★	★
Anti-Corrosive Grade C9	★★★	★★★	★	★	★	-	★★	-
C5 Aliphatic Resin	★	★	-	★	★★★	★★★	★★★	★★★
Hydrogenated DCPD Resin	★	★★	★★★	★★	★★★	★★★	★★	★★★
Low Viscosity Liq. C9	★★★	★★★	★★	★★★	★	-	-	-
High Viscosity Liq. C9	★★★	★★	★	★★	★	-	-	-

This selection guide is intended for general orientation and comparative purposes only.

Performance may vary based on specific formulation chemistry, solvent systems, and environmental conditions.

Users are encouraged to conduct their own laboratory testing to ensure compatibility.

For Technical Data Sheets (TDS), Safety Data Sheets (SDS), or specialized sample requests, please contact our technical department.

★★★ : **Excellent** – Highly recommended for optimal performance and stability.

★★ : **Good** – Suitable for standard formulations and general applications.

★ : **Fair** – Functional with specific formulation adjustments.

- : **Not Recommended** – Not suitable for this specific application.
